FRANCE PROPOSES A COMPROMISE

London, To-day.

Despite the reports that agreement has virtually been reached at the Naval Conference on a 35,000ton battleship, it is learned that the French are still hopeful of the adoption of a lower limit and are suggesting a compromise whereby ach Power is allowed to build two 35,000-ton ships to counterbalance the vessels of this size at present being built in France and

A solution along these lines might possibly commend itself temporarily to the United States, but the Americans are making it quite clear that it will not be accepted permanently. -

GUNS MAY BE REDUCED

London: As a result of 90 minutes conversation, yesterday afternoon between the British and American delegations to the Naval Conference, it is understood that it was virtually agreed to retain 35,000-ton battleships, but guns may be reduced to 14 inches. Teddy Bear Rage In Paris

SOFT AS PET RABBIT

Deliciously tweedy and rough are the winter's newest in woollens, with a look that is as out doorsy as the woods in late Fall and feeling to the touch that is as soft as a pet white rabbit.

The very latest fabrics are interwoven with shreds of pure vegetable fibre in their native state. both as to colour and angularity. p.m. and as a class have been dubbed Tuesdays and Thursdays Reg. 10 "Coconut" in deference to the fibre which lent itself to the first experiments in this new line. More recently, all sorts of others, particularly jute and hemp, have been found to be equally effective.

The effect produced is exactly what might be expected and exactly what the designers have been trying to achieve....something shaggy, dry, and a little rough. When the background material is in a darker shade than the fibrous interweaving the stuff has the appearance of hoar-frost on dark grass, or of a silver-white down. Frosty Fibre

Not all of these new materials, 21 however, have the vegetable fibre woven into a solid pattern. Many of them, such as the plaid "Karo-Rio de Janeiro Maru 22 ko" and "Cotco," have the frosty fibre etched against them. "Chevco," for instance, is a heavy woollen with chevrons outlined in its pattern. In others, the fibre ap-

DAWN STAR CHINESE HOPE

(From The Valley)

FOR the past week now all the griffins have been given fast work to do in preparation for the Annual Race Meeting which opens on Saturday week.

The grass track is in perfect condition and, with a few exceptions, all the ponies have been tried out on this track. This year our Derby griffins are numerically less than before but, judging from the morning gallops, several of the newcomers possess that quality which serves to maintain the high standard of local racing.

Notwithstanding all the formidable strings possessed by Chinese owners at different times, only Mr. Ho Kom Tong's President Hall, with Mr. Encarnacao up, has succeeded in winning the much-coveted honour. Incidentally, Mr. Encarnacao is here again and will be riding for Mr. Eu Tung Sen, and I feel sure that all racing enthusiasts will wish him the best of luck.

This year the Chinese will be again strongly represented in the Derby. There is Rosemary, Mr. Eu Tong Sen's candidate, which is said to be capable of great things. She is a nice looking superiority in the Men's Dogchestnut mare the only thing not in her favour being that she bles. OLYMPIAD

Investigation In Japan

"CHINA MAIL" SPECIAL" Garmisch-Partenkirchen.

The President of the International Olympic Count Baillet-Latour, is already making preparations for a journey to Tokyo, where he will make personal investigations in order to ascertain whether or not Japan is in position to organise the next Olympic Games in 1940.

The President's journey does, however, not mean that Japan has been finally elected, the principal other countries whose claims call for consideration are Italy and Finland. The visit to Japan is being made at this stage so that the Count will be able to report on the countries in question at the forthcoming meeting of the International Olympic Committee to be held in Berlin.-Trans-Ocean Service.

BRITISH IRON AND STEEL TRADE

Remarkable Revival

London, To-day.

The remarkable revival in the iron and steel trade is again evident in the production figures for January. The production of pige. iron in the United Kingdom amounted to 595,500 tons, compared with 559,300 tons in December and 521,200 tons in January, 1935. The production of steel inguts and castings last month amounted to 912,000 tons, compared with 811,500 tons in December and

757,800 tons in January, 1935 --British Wireless Service. OFFICER SHOT

Mr. Potter then said that according to law the Court should not deal with allegations or counter-allegations but should confine itself to the point as to whether the partnership could be carried on or not under the circumstances

He went on to say that the partnership started in 1927 but shortly after that there were some disputes regarding the employment of assistants. An agreement was subsequently reached whereby it was agreed to remedy the irregularities and to establish branches in Canton and Shanghai. Eventually, however, the partners failed to work together in harmony and the petitioner decided to ask for a dissolution of the partner-
